

# LANCE

## QUALITY TAKES TIME

The word *quality* is thrown around a lot these days. We know because we have been in business since 1965. Many things have changed over the years and while we certainly have evolved, we have always focused on maintaining our values.

The culmination of our 55-year journey is reflected in our current ultra-light Truck Camper line featuring our computer designed and cut automated manufacturing process with composite construction materials and an emphasis on green manufacturing.

*We've put in the time... so you can spend quality time.*

# DESIGN & CONSTRUCTION

- A.** The slick, high gloss fiberglass exterior walls are laminated under intense pressure with heat-setting adhesives for years of trouble-free use.
- B.** The roof is made of energy-star rated Polyvinyl Chloride (PVC) material with vents that clamp into place eliminating screws and potential leaks. Integrated rain gutters and drip spouts keep the sides of your camper cleaner and prevent streaking.
- C.** Interiors are constructed of Euro-Ply which Lance imports. This superior product is lighter, formaldehyde free and stronger providing both beauty and durability.
- D.** With an aluminum-framed superstructure, the entire camper fits together like a perfect puzzle. "LanceLock™" features interlocking aluminum extrusions to connect all exterior panels.
- E.** All seals use an anti-wicking material to prevent moisture from transferring into the laminate walls.
- F.** Lance uses more expensive Azdel™ in place of Luan wood virtually eliminating mold and mildew. It's also 50% lighter, formaldehyde free and has a better "R" value for superior insulation and sound absorption.
- G.** Rigid block foam insulation fits tight to resist sagging and promotes structural strength. Four Season package also features insulated bed pad.
- H.** Beautiful and aerodynamic, the nose cap is made of TPO, the same material used for bumpers on automobiles. Its high gloss finish is resilient and resistant to the abuses of the road. Its slick surface makes it easier to clean.

3D advanced CAD engineering create precise plans that run CNC machinery. The result is that every part is the same and perfect every time.

Keeping it all together are stainless steel fasteners. Unlike our competitors, this expensive hardware resists corrosion making for a lasting investment.

## AWARDS

## ECO-SMART RV CONSTRUCTION

Lance RVs are certified green based on an evaluation of our RV manufacturing facility, procedures and practices. Measured against criteria based on national consensus standards including resource efficiency, energy efficiency, water efficiency & indoor air quality.

## BOONDOCKING & OFF GRID CAMPING OPTIONS

2500w Generator- 855s, 975, 995, 1062, 1172

100w Solar Panels (up to 2)

Solar Panel Charge Monitor

Lithium Battery (1 or 2)

# STANDARD FEATURES

Aerodynamic TPO front nose cap protects your camper from debris and leaks while reducing drag and increasing fuel economy.

Keyed alike system simplifies your key ring and keeps your belongings safe.

ultraSTEPglow provides sturdy self-illuminating steps for safe and secure entrance and exit. - 1172 only

Residential queen 60"x80" innerspring mattress allows for quality rest leading to more adventure. - 650, 825, 865 memory foam

Full view dual-pane tinted windows properly insulate your camper while looking good and crank out to let the breeze in. - N/A 650

Large lockable dinette storage drawers utilize residential dovetail construction for strength. - 855s, 975, 995, 1062 & 1172

100% LED lighting brightens your camp and is easy on your power supply.

Magnetic exterior latches stay in place for hands free access.

Mountain scene graphics provide a fresh and unique aesthetic evoking the bold spirit of truck camping.

Exclusive Lance Load Roof Rack system safely stores your canoe, kayak, paddle boards, storage box...etc. - N/A 650

Exclusive Lance Bed-Maid System w/removable sheets & summer/winter sides provide a warm, laundry friendly bedding alternative.

# OPTIONAL FEATURES

Latitude power awning provides unobstructed shade with direct response wind sensor & LED light bar.

Dometic Penguin II 10K low profile a/c runs on 2,200w generator allowing for off the grid cooling.

Backup camera w/color display and sound makes backing up a safer, one-person job.

Exclusive Lance cabover struts cut down on sway from wind. - Remove during off-road use

Automatic roof-mounted satellite TV antenna quickly finds the signal for you. - N/A 650

Remote control operated electric jacks take the haste out of loading and unloading your camper.

Keyless entry with fob provides secure one button operation of your entry door, just like you have on your truck.

Exclusive Lance ultraSTEPplus gives you safe and secure steps while not impeding your ability to tow. - 650, 865 & 850

Heki dual-pane vent increases ventilation in the cabover and lets you look out at the stars. - N/A 650, 825 & 865

Lance exclusive ultraDECKplus offers extra storage and a spacious entry/exit platform. - 975, 995 & 1062

# RAD RIGS & ADVENTURES

## MORTONS ON THE MOVE

"Years ago, we gave up the stationary life for one where we are constantly on the move. This year, we have been taking a Lance 1172 Truck Camper up through Canada and Alaska to the Arctic Ocean. The wilderness continues to call to us, and the Lance truck camper takes us confidently. Lance Truck Campers are known as "Alaska Tested Tough." After testing it ourselves on some of the longest and notorious dirt roadways in North America, we can say with great certainty that this rig was built for this job!"

- Tom & Cait Morton

## THE ALTIMETER

No matter your hobby or destination, a Lance truck camper is ready to take you there. With four season camping capabilities and unmatched versatility; a Lance truck camper can go more places, get there quicker, allow you to stay longer and tow the things you can't with other RVs. THE ALTIMETER is Lances latest project vehicle exemplifying the above statements. It features a custom designed graphics wrap on a short bed 2019 Ford F350 and stock 855s model camper along with a host of bolt on upgrades to optimize adventure.

# 4 SEASONS CERTIFIED ALL WEATHER PACKAGE (OPTIONAL)

## KEY FEATURES

**Ducted heat** is routed into individually insulated holding tanks to keep them, the valves and PEX lines warm.

**Water heater bypass & winterizing valves** make draining the system for winter storage a breeze.

**Insulated bed mat** provides warmth, sound deadening and prevents moisture build-up underneath mattresses.

**Insulated hatch covers** add an additional layer of insulation to vents and sky lights.

**Insulated battery & LP compartments** keep your batteries protected and your tanks from freezing.

# TRUCK/CAMPER COMPATIBILITY GUIDE

These are general guidelines to use when matching a Lance camper to your truck and assumes standard equipment on both the truck and camper. Whether any camper can be used with your truck is dependent on your truck configuration (2WD vs. 4WD, standard cab vs. extended cab, etc.) and its capacities for carrying and /or towing - how much optional equipment is added to the camper - what you tow - and the weight of passengers and all other items you carry in your truck and camper. Because we're unfamiliar with your specific truck and how you intend to use it, Lance makes no warranties or representation - express or implied - as to performance or reliability of your truck with a Lance camper. For professional guidance, always consult with your Factory Authorized Lance Dealer. They're trained in properly matching truck/camper rigs.

## TOWING

When towing behind a larger camper, extending the hitch rearward is necessary. Lance recommends the Torklift SuperHitch receiver hitch and hitch box extension. It replaces standard truck factory receivers to allow for greater towing capacities.\*

# DEALER INSTALLED SUPPORT EQUIPMENT

- 1. Receiver hitch extension** increases your trucks towing capacities and extends your receiver past the camper.
- 2. Wireless Rear-View Camera/ Microphone and In-Cab LCD Monitor** lets you see – and hear – what's behind you.
- 3. Front & Rear Turnbuckles** are mounted to the frame to safely and securely attach and anchor the camper to your truck.
- 4. Air Bags / Air springs** provide better handling and control under heavily loaded conditions.
- 5. Upgraded Shocks** can greatly improve ride in all weather and road conditions.
- 6. Onboard air compressor w/remote** allows you to adjust air spring (air bag) pressure on the go.
- 7. Lance Custom Designed Cab-Over Struts** reduce bucking from irregular roads and sway from wind.
- 8. Rear-Mounted Centering Guides** assist in positioning your camper within the truck bed, and are available for most truck models.
- 9. Sway bars** reduce body roll providing better vehicle control.
