

LANCE

TWENTY TWENTY THREE | TRUCK CAMPERS

850 & 1172 Shown

WE TRULY APPRECIATE YOUR INTEREST IN LANCE PRODUCTS.

Over the past 57 years of producing RVs, we have learned a lot. The biggest lesson has been to supply a high-quality, fully functioning RV that will provide you with years of memories.

The process to determine the best RV model for you can be enhanced by going to our website www.Lancecamper.com. The information on our website is updated more frequently than our printed materials.

We pride ourselves on relationships. The first relationship is with our Dealer Partners, who will be your primary contact for all Lance products. We have a Q&A section on our website that can answer most questions. If you have additional specific questions, they can be sent to us directly at Info@lancecamper.com, allowing direct communication with Lance. The next source of direct contact can be found on our website through our Lance Chat area, connecting you directly with a Lance representative.

We look forward to welcoming you to the Lance family.

Warm Regards, Gary Conley

TOP REASONS TO BUY A LANCE

QUALITY

OFF-GRID CAPABILITY

HERITAGE

STANDARD EQUIPMENT

4 SEASONS COMFORT

OPTIONAL EQUIPMENT

QUALITY

Since 1965, Lance Camper has been building the highest quality truck campers and travel trailers, designed to deliver the most value and enjoyment possible. For 2023, we have raised the bar yet again in quality, design, and value. As a result, those who have owned a Lance return again and again. For the first-time buyer, we encourage you to "purchase your last RV, first!"

OFF-GRID CAPABILITY

Boondocking, dry camping, or overlanding, whatever you choose to call it, off-grid RV camping is valued by many as the best way to camp. The ability to set up camp without anyone in sight and being self-reliant has its merits. Gone are the hassles associated with overcrowded campsites and loud neighbors, but it does require a properly equipped RV, like a Lance. Available features include:

3D advanced CAD engineering create precise plans that run CNC machinery. The result is that every part is the same and perfect every time.

Solid Surface Counter Tops - Residential styled galley counter tops look beautiful while resisting the negative effects of moisture.

Roof Mounted 100W Solar Panel (1 or 2) assists in keeping your battery(s) charged.

Lithium Batteries (1 or 2) are the latest battery technology offering more usable capacity vs. traditional batteries in a lighter, safer package.

1500W inverter provides power to all outlets and microwave when not plugged in or running generator.

TPO Front Nose Cap - Protects your camper from debris and leaks while reducing drag and increasing fuel economy.

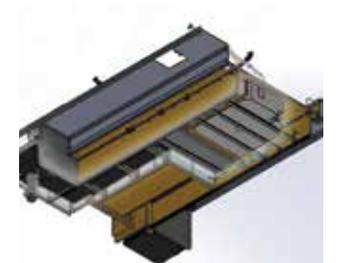

Overhead Cabinetry Construction - Strong yet light Euro-Ply construction, combined with heavy-duty hinges and automatic LED lighting, rival custom residential cabinetry!

New Ultra-Quiet 2500W LP Generator over 60% quieter and less vibration than previous model. (855S, 960, 975, 1062 & 1172).

LTE/Cell Signal Booster - Boost your cell signal and reach more cell towers, while multiple users enjoy greater coverage and faster on-line speeds with no extra monthly fees.

Large Fresh Water Tank Capacities provide flexibility to stay off the grid longer.

Lancaster facility, circa 1997

HERITAGE

Over 50 years of quality and industry-leading innovations have positioned the Lance brand as one of the most sought-after RVs on the road today. Often referred to as the original "Sport Utility RV" or SURV, recognizing the unmatched versatility of a Lance truck camper. Respect is earned and not easily obtained in today's competitive marketplace.

STANDARD EQUIPMENT

What other manufacturers call optional, along with Lance quality, our customers enjoy 20+ of the most requested features as standard equipment. Below is a sampling of the more popular standard features, please see pages 16 & 17 for a complete listing.

Truck Camper Vehicle Harness - A Lance exclusive. Designed with heavier gauge wire and a battery separator, this plug and wiring harness allows your vehicle to charge your RV's battery properly and operate your 12v appliances while in route. It also reduces the chance of battery depletion when your vehicle is not running.

Experienced Staff - From our sales and service staff with a combined 200+ years of RV experience assisting customers and dealers to the 400+ production staff with 20+ years of tenure, the Lance Team has the expertise and passion for delivering the highest possible quality product, sales, and service experience in the industry.

Latitude Powered Awning - Provides unobstructed shade with direct response wind sensor & LED light bar.

Flat Bottom Microwave - Offers the latest cooking technology.

Established 1965 - From humble beginnings in North Hollywood, CA, to our current 13-acre campus home in Lancaster, CA, and recent expansion in Decatur, Lance has kept quality, product innovation and customer care as its primary objectives.

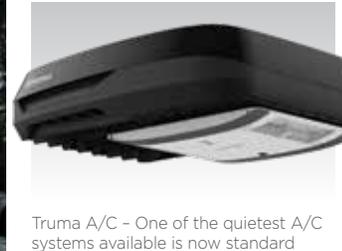

LanceLock - This Lance exclusive features interlocking aluminum extrusions which create a superstructure without having to use joints or additional attachments which would add unnecessary weight, keeping our campers the strongest and lightest in the industry.

Remote Control Operated Electric Jacks - Take the hassle out of loading and unloading your camper.

Four Season's Comfort Technology Package - Key features including ducted holding tank heat, insulated hatch covers & insulated over-cab bed mat, keep you warmer in the winter and cooler in the summer!

Truma A/C - One of the quietest A/C systems available is now standard equipment on Lance Campers! Expanding on our partnership with Truma, the Aventa A/C brings efficiency and comfortable TV watching and night mode decibel levels!

4 SEASONS COMFORT

Extending your camping season in comfort, Lance's Four Seasons Comfort Technology package is standard equipment on all but the lightweight 650 model. The intentional selection of several vital features combines to ensure you and your loved ones stay comfortable as you explore during the "shoulder seasons"!

Ducted heat is routed into individually insulated holding tanks to keep them, the valves and PEX lines warm.

Water heater bypass & winterizing valves make draining the system for winter storage a breeze.

Hand sewn in our facility, the insulated hatch covers add an additional layer of insulation to vents and sky lights.

Ultra-Lightweight Dual-Pane Acrylic Euro Windows with built in screen and black-out shade, provide a stylish aesthetic with a wide range of adjustability as desired, from the secured vent only position to wide open for maximum airflow.

OPTIONAL EQUIPMENT

It's a short list.....Our lengthy list of standard features, which most competitors call "optional," has no equals. The following additional features is a sample of what is available for those seeking the absolute pinnacle of luxury. Please see pages 16 & 17 for a complete listing of optional equipment.

Lance Load Roof Rack - Safely store your canoe, kayak, paddle boards, etc. N/A 650 (Weight Limit 500lbs. Distributed)

Rear Awning - Provides protection from the elements over the rear of your camper. Is model specific in either electric or manual operation. N/A 1172

Torklift Glow Step Stow N' Go - Provides sturdy, adjustable, glow-in-the-dark steps for safe and secure entrance and exit. (Optional on 650, 825, 865, & 850)

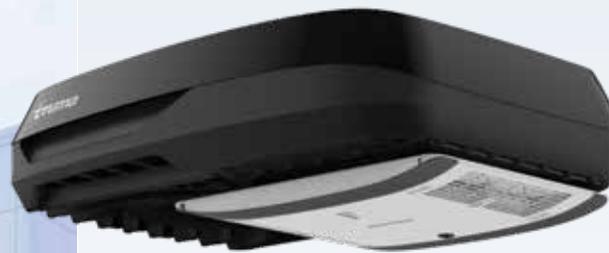

Wireless Rear Camera W/Color Display and Sound - Makes backing up effortless.

Lance Exclusive ultraDECKplus - Offers extra storage and a spacious entry/exit platform. (Optional on 975, & 1062)

Self-Locating Satellite Dish - Quickly finds the TV signal for you. (N/A 650)

LANCE & TRUMA

European technology meets California "cool"! Born and raised in different countries, both rose to the top of their respective categories. With a combined 127 years of experience, two successful legacy brands come together to deliver a "best in class" heating and air conditioning experience. Both are known for industry-leading quality and durability to ensure you create unforgettable times outdoors while Living the Lance Life!

FACTORY TOUR

A behind-the-scenes look at what is "The Lance Difference!" Take a plant tour of Lance Camper Manufacturing Corporation in Lancaster, CA. We want you to see our quality firsthand! Tours are open to all owners, shoppers, and RV enthusiasts who want to discover the Lance difference. TOWING

When towing behind a larger camper, extending the hitch rearward is necessary. Lance recommends the Torklift SuperHitch receiver hitch and hitch box extension. It replaces standard truck factory receivers to allow for greater towing capacities.*

www.torklift.com

KEY SUPPLIER PARTNERS

- Receiver hitch extension** increases your trucks towing capacities and extends your receiver past the camper.
- Wireless Bluetooth Rear-View Camera/Microphone and In-Cab LCD Monitor** lets you see – and hear – what's behind you.
- Front & Rear Turnbuckles** are mounted to the frame to safely and securely attach and anchor the camper to your truck.
- Air Bags / Air springs** provide better handling and control under heavily loaded conditions.
- Upgraded Shocks** can greatly improve ride in all weather and road conditions.
- Sway bars** reduce body roll providing better vehicle control.

THE ADVANTAGES OF TRUCK CAMPER OWNERSHIP

UNMATCHED VERSATILITY

Often referred to as the most versatile RV on the market, the ability to go anywhere a pick-up truck can go and to tow just about anything are key reasons people love Lance truck campers. Additionally, the ability to unload your Lance camper and use your pick-up truck independently while camping and even as your daily commuter are fantastic benefits.

SUPERIOR MANEUVERABILITY

Maneuverability is best in class due to the more manageable size and smaller turning radius of the pick-up truck vs. larger RVs. A Lance truck camper will greatly increase your ability to explore on or off the road. Allowing more possible camping locations and traditional parking spots in town.

EASY TO DRIVE

Due to the ease and familiarity of driving a pick-up truck, many people who do not enjoy driving larger RVs, find Lance truck campers less stressful and a pleasure to operate.

OUTSTANDING OFF-ROAD CAPABILITY

When combining the off-road capability of a pick-up truck, especially a 4x4, with a Lance Campers compact size and options such as solar power and onboard generator, "boon-docking" and "Overlanding" may become common phrases for you!

EXCELLENT RESALE VALUE

The versatile Lance truck camper has a history of holding a greater portion of its retail value than both its competitors and other types of RVs. Due to superior quality, properly cared for Lance truck campers are highly sought after, giving you more options when its time to look for your next new model.

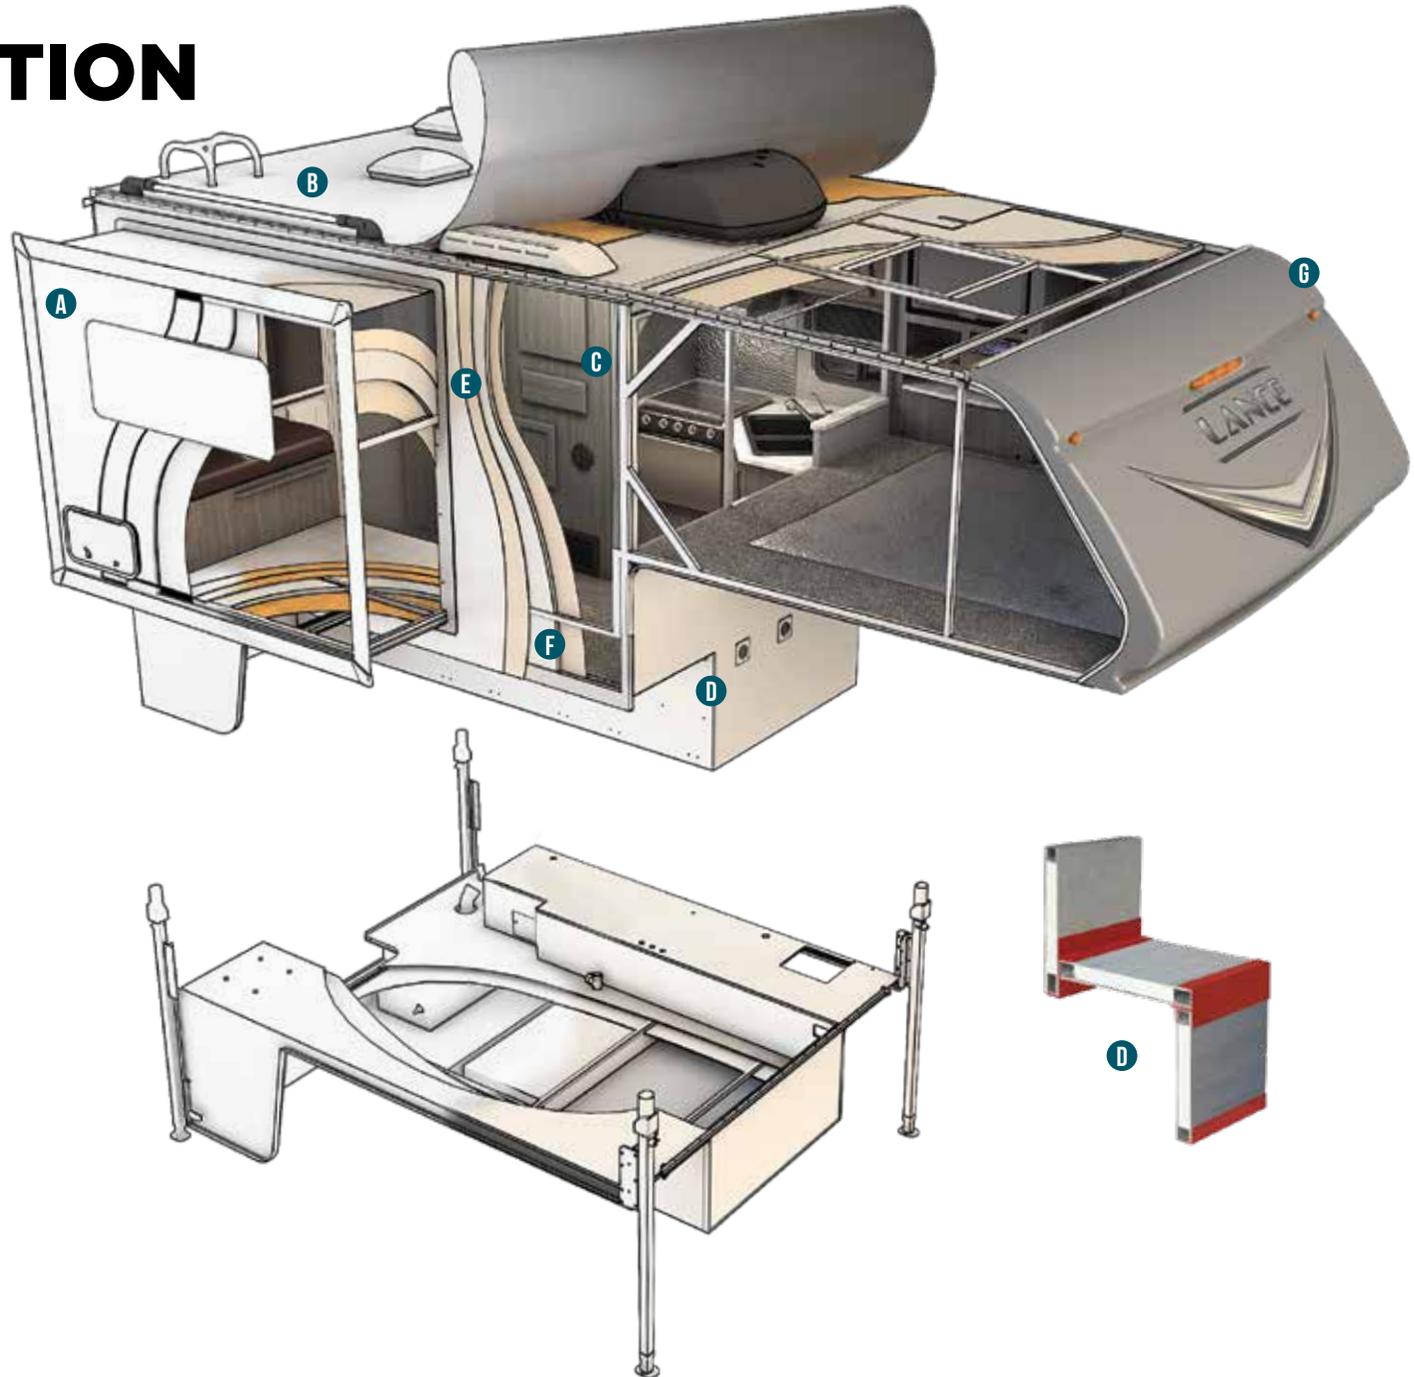

#LANCETRUCKCAMPERLIFE > #VANLIFE!

DESIGN & CONSTRUCTION

- A.** The fiberglass exterior walls are laminated under intense pressure with heat-setting adhesives for years of trouble-free use.
- B.** The roof is covered in energy-star rated synthetic membrane material. Integrated rain gutters and drip spouts prevent the sides of your trailer from streaking.
- C.** Interiors are constructed of Euro-Ply which Lance imports. This superior product is lighter, formaldehyde free and stronger providing both beauty and durability.
- D.** With an aluminum-framed superstructure, the entire camper fits together like a perfect puzzle. "LanceLock™" features interlocking aluminum extrusions to connect all exterior panels.
- E.** Lance utilizes an arrangement of composite materials in a laminated and pressure bonded sandwich construction for structural integrity, superior insulation and sound absorption.
- F.** Rigid block foam insulation fits tight to resist sagging and promotes structural strength. Four Season package also features insulated bed pad.
- G.** Beautiful and aerodynamic, the nose cap is made of TPO, the same material used for bumpers on automobiles. Its high gloss finish is resilient and resistant to the abuses of the road. Its slick surface makes it easier to clean.

3D advanced CAD engineering create precise plans that run CNC machinery. The result is that every part is the same and perfect every time.

Keeping it all together are stainless steel fasteners. Unlike our competitors, this expensive hardware resists corrosion making for a lasting investment.
