

PREMIUM BUILD

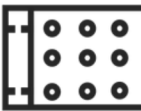

MADE IN THE USA

Built In Ligonier, Indiana by a group of dedicated Innovators who are questioning the standard American RV and pushing one of the best trailers In the world Into the market. A manufacturing process that puts attention to detail over quantity, and a dedicated team ready to help you when you need It.

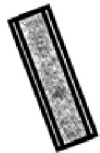

ZERO WOOD USED - YES, ZERO

The Pause Is built with longevity In mind, with composite walls, aluminum cabinets and frame, there Is no risk of your trailer rotting away. No wood backing, studs, no wood at all. Making this a trailer that Is built to last.

HUCK RIVET ALUMINUM FRAME

Built by MORyde In America, this custom built aluminum frame Is built with high quality metal, and has been tested on the most extreme military track courses In the world. This frame Is overbuilt so you never have to worry If It can handle the Intense terrain you may encounter. Huck riveting Is used for semi-trucks and suspension bridges and ensures a perfect build everytime.

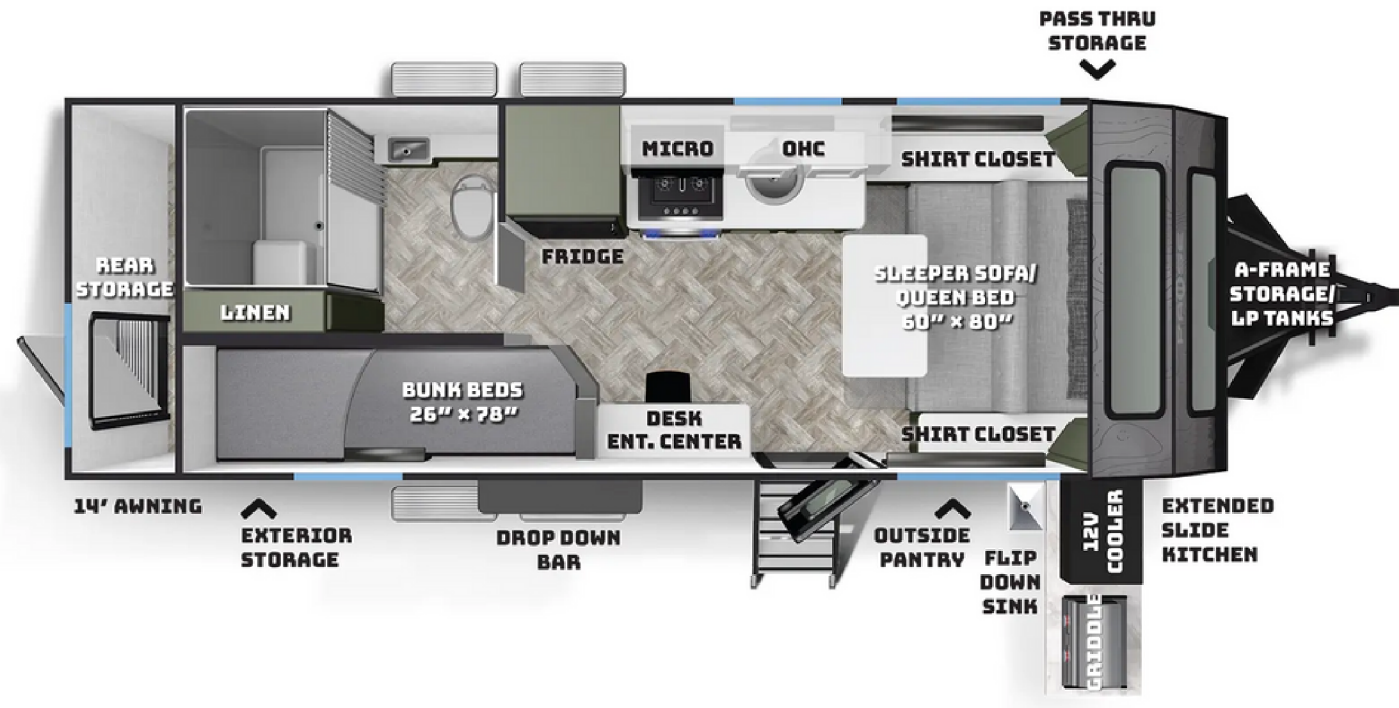

STRONG, COMPOSITE WALLS

These walls have been hit with sludge hammers, heavy metal balls, and more. Pause also uses PVC extrusions to eliminate extreme thermal bridging and with 1.5 Inches of dense composite material these walls will protect you from all the elements; snow, rain, hail, extreme heat, etc.

PAUSE XC. 21.4

MSRP \$144,617

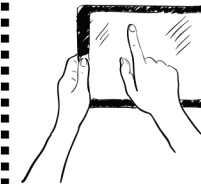

UNIQUE COMPONENTS

MORRYDE INDEPENDENT SUSPENSION

One of the best suspensions the world has to offer! With 4 Independent wheels on the ground, and up to 12 Inches of travel. This Independent Airbag suspension Is ready to help you get to the most remote places, tested and built right here In the USA.

GARMIN RV CONTROLS

The smartest trailer In the world, controlled by Garmin RV Controls you can access all the controls for your RV from the built-in tablet, an optional removable tablet, or just use your phone. Control the lights, AC, heater, leveling, suspension just using Garmin. The entire trailer auto-levels when you get to camp. No hassle, and more time to enjoy the outdoors, and less time balancing on blocks. And yes, everything has a manual back-up In case of emergency.

WORK TRULY REMOTE

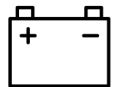

With built In desk workspace, you can have a comfortable place to complete all your work before you play. Work remote from your favorite places In the world, and enjoy the view right from your workspace. Equipped with drawers, and plenty of outlets to power your gear.
