

Touring with an overland hybrid travel trailer doesn't get easier than with the XT12HR. With very little setup required, standard features like a toilet and shower ensuite, air conditioning, an electronic stability control and a rear view camera, you'll love the simplicity and comfort provided. Solar charging and lithium power with ample water storage will keep you off grid longer while the generous east west bed affords a comfortable night's sleep. Slide out kitchen with plumbed hot and cold water makes cooking under the protection of the large electric awning a breeze. Built for full off-road use, the campsite opportunities are endless, and you'll get there with confidence.

## PREMIUM BUILD

### BORN IN THE BUSH

Market Direct Campers is 100% Australian-owned and operated. Since 2005, MDC has grown from a family-owned business to a prominent manufacturer, with over 25,000 units sold across an expanding network of showrooms and production facilities. Known for producing high-quality, durable caravans and campers at affordable prices backed by a 5-year structural warranty and exceptional customer service.

### FACTOR 5 CHASSIS

Built on an expertly engineered factor 5 chassis, exemplifying robust construction and unparalleled durability. This advanced chassis system, crafted from high-grade materials, provides exceptional strength and stability, ensuring the trailer can withstand the rigors of off-road conditions. The factor 5 design signifies a meticulous approach to engineering, offering an enhanced safety margin and superior handling capabilities.

### INDUSTRY APPROVED

MDC Campers exemplifies excellence in trailer manufacturing, with compliance to the National Association of Trailer Manufacturers (NATM) and certification by the RV Industry Association (RVIA) and Pacific West Associates (PWA). These affiliations assure adherence to stringent safety and quality standards, highlighting MDC's commitment to producing superior, reliable trailers.

### LIFETIME WARRANTY

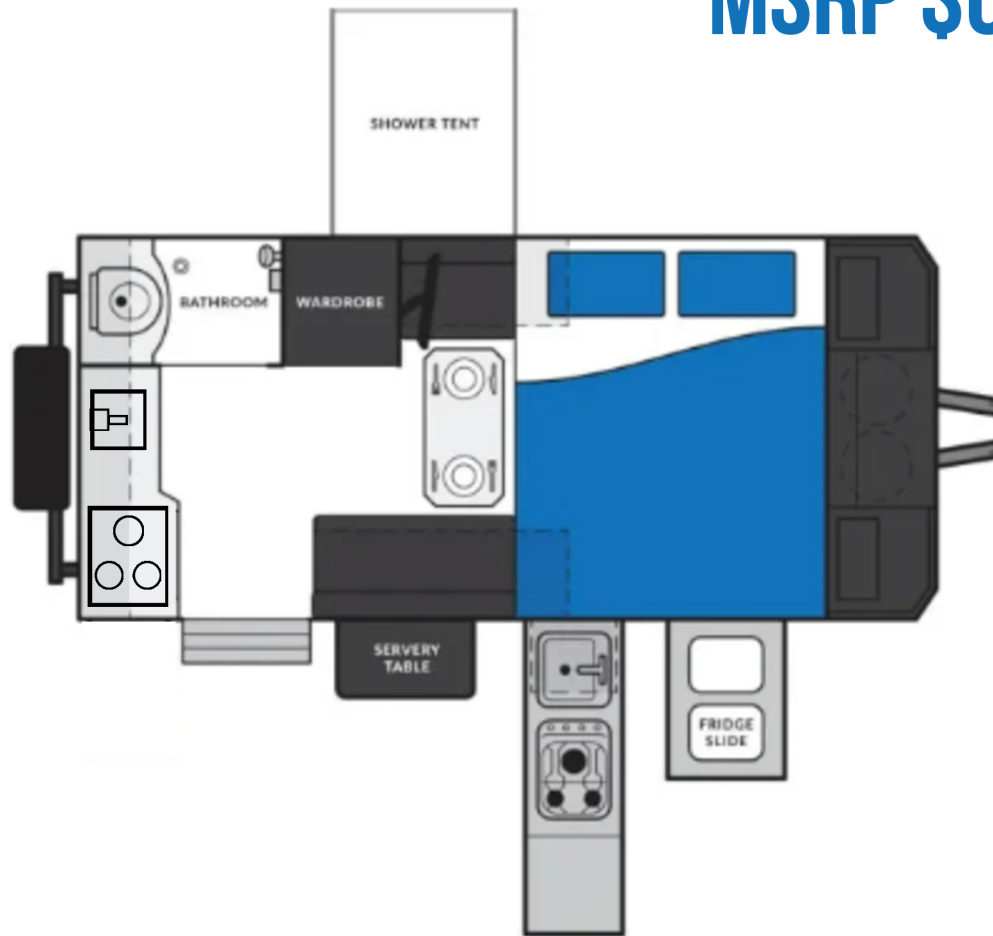

MDC trailers stand as a testament to exceptional durability and trustworthiness, underscored by their Lifetime Structural Chassis and Drawbar Warranty. This warranty reflects MDC's unwavering confidence in their construction quality and design integrity. Each chassis and drawbar is meticulously engineered and built to last, ensuring that your trailer withstands the challenges of rugged terrains and arduous journeys.

# MDC XT12HR OFF-GRID EXTREME

## MSRP \$69,500

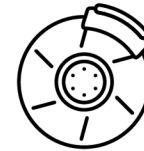

## OFF-ROAD READY

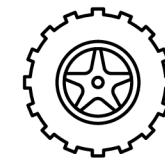

### X-TRACK INDEPENDENT SUSPENSION

The MDC 12 from MDC showcases a state-of-the-art suspension system, featuring the X-TRACK Independent coil spring suspension, complemented by two TOUGH TRAX Shock absorbers on each side. This advanced setup is engineered to provide superior handling and stability, adapting flawlessly to varying off-road conditions.

### TUSON SWAY CONTROL

Now equipped with Tuson electronic stability control offers unparalleled towing confidence for off-road enthusiasts. This system enhances the trailer's overall safety and performance, especially in rugged terrains, ensuring a smooth and secure adventure. Ideal for those who demand reliability in their off-road journeys.

### GOODRIDE MT TIRES

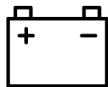

The MDC XT12HR is outfitted with high-performance Goodride MT tires, sized 265/75R16, mounted on 16x7.5 6/139.7 aluminum alloy wheels. These rugged tires are specifically designed for off-road conditions, providing excellent traction and stability on a variety of surfaces, from rocky paths to muddy trails.

### EXTERIOR SHIELD

Armored with exceptional exterior shielding, ensuring it stands up to the harshest off-road conditions. It features robust checker plate walls that provide an extra layer of durability, protecting the trailer from debris and harsh elements. Additionally, the trailer is equipped with a comprehensive rock guard, including forward-facing and rear wheel mud flap protection.

## HIGH POWERED

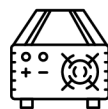

### 400 AH LITHIUM BATTERY

This 2025 MDC is now equipped with one large 400Ah battery from Renogy, which can power all your gear, components without worry.

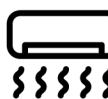

### 350 WATTS SOLAR

Outfitted with a high-efficiency solar setup, the MDC 12 has 300 watts with 2x 175W panels on the roof. This eco-friendly feature is designed for sustainable living and prolonged off-grid adventures.

### RENOGY BATTERY MANAGEMENT SYSTEM

Featuring the advanced Renogy Battery Management System, a cutting-edge solution for efficient power management. This system has a user friendly monitor in the RV, but you can also monitor your power right from your phone.

### RUN YOUR A/C OFF-GRID

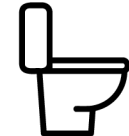

Now you can finally run your A/C off-grid! The MDC XT12HR comes with the Truma Aventa and can be powered from your Inverter and robust battery bank.

## UNIQUE FEATURES AND OPTIONS

### OUTDOOR KITCHEN

Features an elegantly designed outdoor kitchen that elevates the camping experience. Crafted from durable stainless steel, this kitchen is ideal for preparing meals in the great outdoors.

### INDOOR BATHROOM

Comes ready to roll with an indoor wet bath with a Thetford Cassette toilet, and a adjustable shower head with on-demand hot water provided by the Truma AquaGo.

### ELECTRIC AWNING

Want an easy way to protect yourself from the sun, or from bad weather? Deploy this 14 foot awning with just the push of a button.

### BACK-UP CAMERA

Helpful 2.4GHz rear camera and 7" portable monitor so you can navigate into tight camping spots without yelling back and forth with your partner.

### AUSSIE TRAVELER DOOR

One of ROA's favorite doors on an off-road RV is the Aussie Traveler Door. Has a screen door that can separate and is built with strength to last.

### LIGHTWEIGHT RV

This trailer is towable by a wide variety of vehicles, it's also rare for a camper this lightweight to provide the amenities this MDC 12 does.

### HARD WALL CAMPER

This trailer has no canvas pop outs, or set up needed. You get a full, hard sided camper that is great for protecting you against the harshest of elements.

### CRUISEMASTER D035 HITCH

Outfitted with the Cruisemaster D035 Hitch, an industry-leading towing solution renowned for its reliability and robust performance.

## OFF-GRID EFFICIENT

### 42 GALLON FRESH WATER TANK

Striking a balance between capacity and weight, this camper with a 12 foot box, offers more water capacity than most trailers its size.

### TRUMA VARIOHEAT FURNACE

The Truma Varioheat is a powerful and efficient furnace that is ducted through the unit. It makes dialing in the exact temperature you want easy and pain-free.

### ON-DEMAND HOT WATER

Equipped with the Truma Aquago Comfort Plus, a state-of-the-art, propane-operated instant hot water system that ensures a continuous supply of hot water on demand.

### 40 LBS OF PROPANE CYLINDERS

Standard with two 20lb propane cylinders, providing a substantial total capacity of 40lbs of propane to power various appliances and systems within the trailer.
