# **SOARING EAGLE CAMPERS**

**Affordable, Lightweight, Minimalistic Truck Campers for Real Campers!**

# OUR STORY

## SOARING EAGLE CAMPERS

The entry level truck camper market typically features campers mostly made with wood construction, covered by thin metal. SOARING EAGLE CAMPERS constructs our campers

using all-welded tubular aluminum construction and thick fiberglass exteriors (or durable aluminum exteriors on the OV-X product line). Our models are minimalistic, yet refined with special attention given to outdoorsmen and those true camping enthusiasts who are more

about the adventure and time spent outdoors than what amenities are inside their camper.

Soaring Eagle Campers customers are hunters, fishermen, hikers, kayakers, mountain bikers, etc. who just want a more comfortable night's sleep in a camper that will not overload their medium and light duty trucks. With these customers in mind, Soaring Eagle Campers is just doing our best to provide a quality-built product, made with superior materials, that will provide years of carefree use.

The entire structure of a Soaring Eagle Camper is welded together to form a strong, UNI-BODY construction that

will stand the test of time and the rigors of the road!

The unit is easy to keep warm or cool as each section is fully insulated,

including the floor, walls and roof.

STRUCTURE SCREWED & WELDED TOGETHER

The dinette bases in the Soaring Eagle Campers' Adlar models are crafted out of durable, lightweight, high-tech composites that are both lighter than wood and much longer lasting.

The entire STRUCTURE of a Soaring Eagle Camper is wood-free, providing the best value for your money!

NO WOOD - NO ROT!!

# Go Anywhere - Camp Anywhere!

Load up your gear and GO! Soaring Eagle Campers are the perfect step up from a tent. The overall interior spaciousness afforded by the ADLAR 6.5XL interior will surprise you, with plenty of headroom, along with a roomy dinette, wardrobe and loads of counter top and storage space. Four slider windows provide tons of natural light and great air flow, in addition to standard power vents, and an optional roof air conditioner.

Shown above in our optional gray fiberglass exterior, the ADLAR 6.5XL offers sleeping areas both in the upper deck and in the dinette that quickly converts into a bed.

Most models feature our popular North-South pull-out queen bed designed for couples who want the extra room for sleeping.

Shown on a 5.5' bed.

The full size wardrobe cabinet provides great storage for all your clothing needs. A built-in microwave is standard, while popular options include a powered cooler (12V/110) and a portable Blackstone griddle.

The portable toilet provides another level of independence when traveling. When not in use, it hides away under usable counter space.

## DESIGNED TO FIT IN THE BED OF THE TRUCK WITH THE TAILGATE UP!

Being able to close your tailgate with the camper IN the truck bed is a game changer! Today's trucks offer a number of security and safety features built INTO their tailgates, including back up cameras and security sensors. Being able to keep your tailgate closed when traveling was a priority with Soaring Eagle Campers when designing this model. With most modern trucks also offering STEPS and even hand rails as part of their tailgate design, it just makes sense to build our campers to take advantage of those features!

Weighing in at less than 1,200 lbs., the Soaring Eagle Campers' ADLAR 6.5XL model is built for those looking for simplicity, but who want just a little more than what our smaller 6.5 model offers.

Featuring an all-aluminum structure and fiberglass skin, its utilitarian design fits both in trucks with a 5' bed (with the tailgate off), as well as in trucks with a 6.5' bed - with the tail gate CLOSED (on most truck models) and better protect their camper during travel. The ADLAR 6.5XL offers loads of built-in storage, a portable toilet, built-in microwave and more! Shown below is our optional pull-out North-South bed - perfect for couples who are looking for more space to sleep.

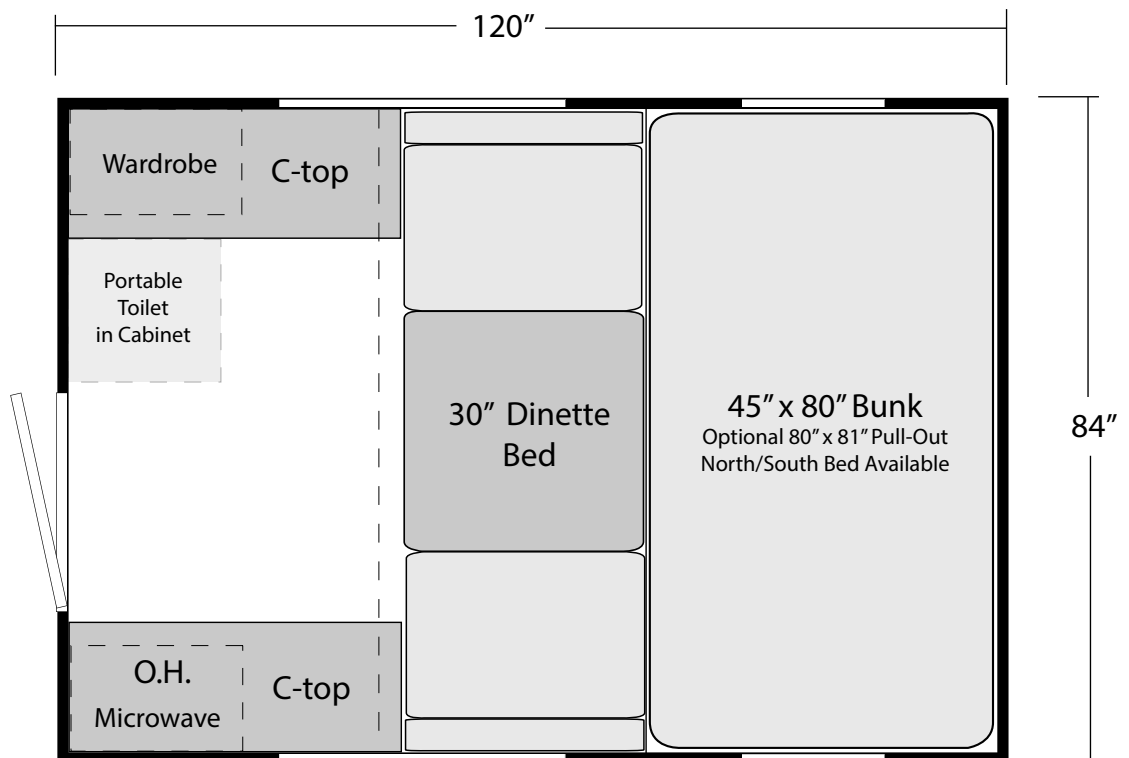

### SPACIOUS SLEEPING AREA PROVIDED BY THE OPT. PULL-OUT BED

# ADLAR 6.5XL

**UNDER 1,200 lbs.! A TRUE HALF-TON TRUCK CAMPER THAT WILL NOT OVER LOAD YOUR TRUCK!**

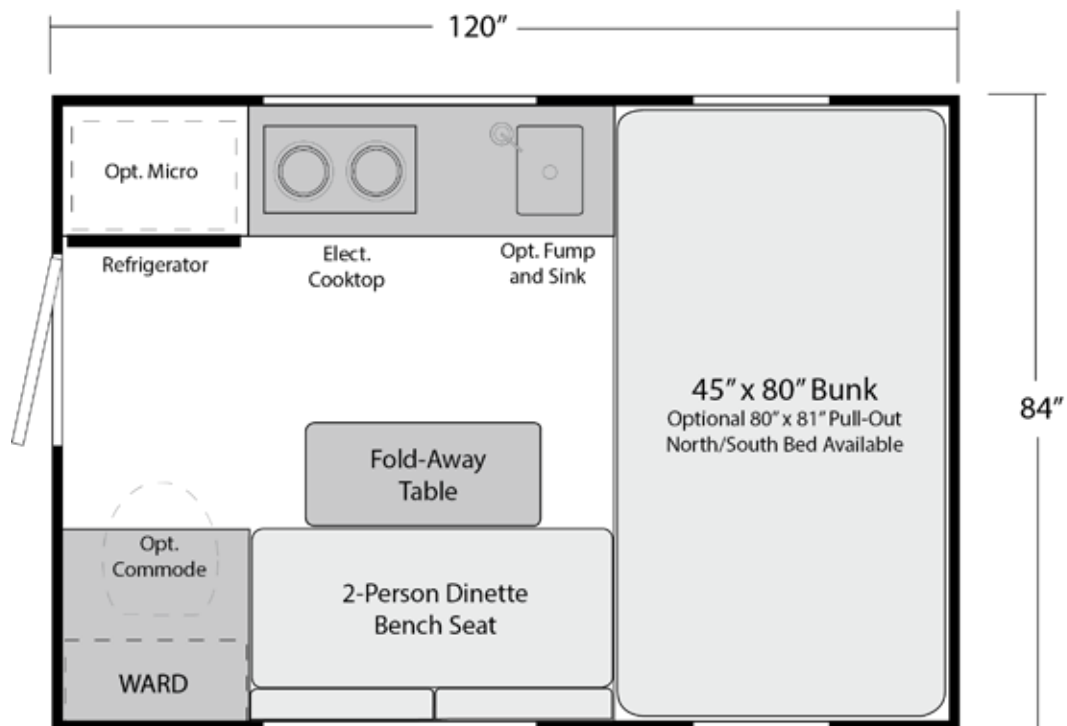

**ADLAR 6.5XL**

# ADLAR 6.5XLS

**UNDER 1,300 lbs.! A TRUE HALF-TON TRUCK CAMPER THAT WILL NOT OVER LOAD YOUR TRUCK!**

**ADLAR 6.5XLS**

Customers looking for more kitchen type amenities than what the other Soaring Eagle Campers offer will love our new 6.5XLS model! While sticking to our minimalistic theme with our entry-level truck campers, customers that asked for just a little more amenities have their requests answered with this surprisingly spacious model.

## THE ADLAR 6.5XLS – FOR THOSE WHO WANT A KITCHEN AND MORE

Campers will enjoy the added luxury and convenience of the 12V refrigerator, and a cooktop range that can be quickly removed and taken outside for cooking on a table. Options include a sink with hand-fump faucet, microwave oven, and toe-kick electric heater! There is a comfortable side-by-side dinette, a wardrobe, and space for an optional portable toilet on the passenger side.

# NEW MODEL - ADLAR 5.0

The Adlar 5.0 model will fit comfortably in just about any small truck model including the Tacoma, Ranger, Gladiator, Colorado, Ridgeline and more! This model will even fit most Ford Mavericks - one of the the smallest trucks on the market. The Adlar 5.0 model has opened up truck camping to millions more truck owners than every before! NO LONGER will the small truck crowd in America be limited to roof-top tents or strange and flimsy fold-out designs!

Soaring Eagle Campers has designed a surprisingly roomy model for our customers with a cab-over bed that has an option for a pull-out North-South bed, and a dinette which can be easily converted to a secondary bed area.

Popular options include a roof A/C, a 12V refrigerator and a microwave offering the convenience of home while on the road.

# THIS CHANGES EVERYTHING

Like our larger Soaring Eagle models, in many 5' bed models you can close your tailgate when traveling so you can continue to utilize your vehicle's rear view camera and sensors.

This camper truly is a game changer for two of the most biggest groups of brand loyalists on the market - Tacoma owners and Gladiator owners.

Helping outdoor enthusiasts get into the Truck Camper lifestyle is what Soaring Eagle Campers does best.

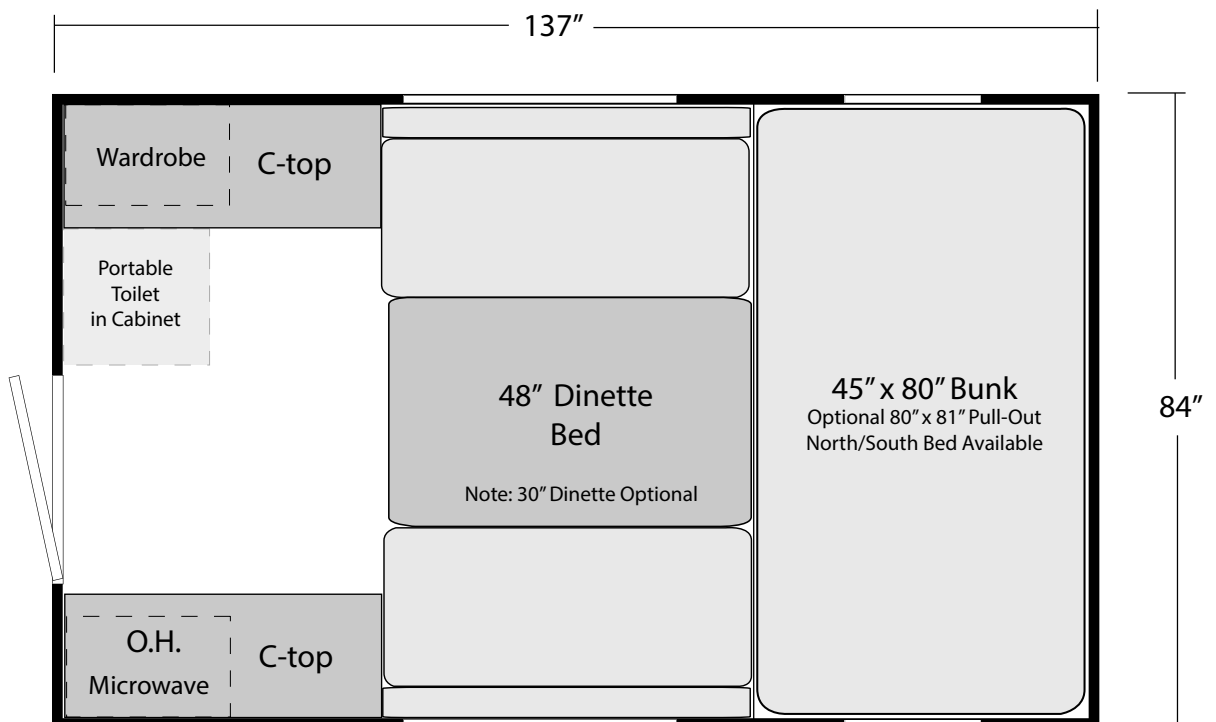

For a small camper, the Adlar 5.0 sure does offer a lot of room for not just sleeping, but eating and playing games while waiting out the rain.

# ADLAR 8.0XL

**At ONLY 1,220 lbs. This is THE LIGHTEST 8' Truck Camper on the Market! A TRUE HALF-TON TRUCK CAMPER!**

**ADLAR 8.0XL**

Customers have been asking us to expand our popular Adlar 6.5XL model into the 8' truck bed market and we have responded with this Adlar 8.0XL model.

Featuring a 48" dinette which quickly converts to additional sleeping space, this Adlar model is our biggest yet.

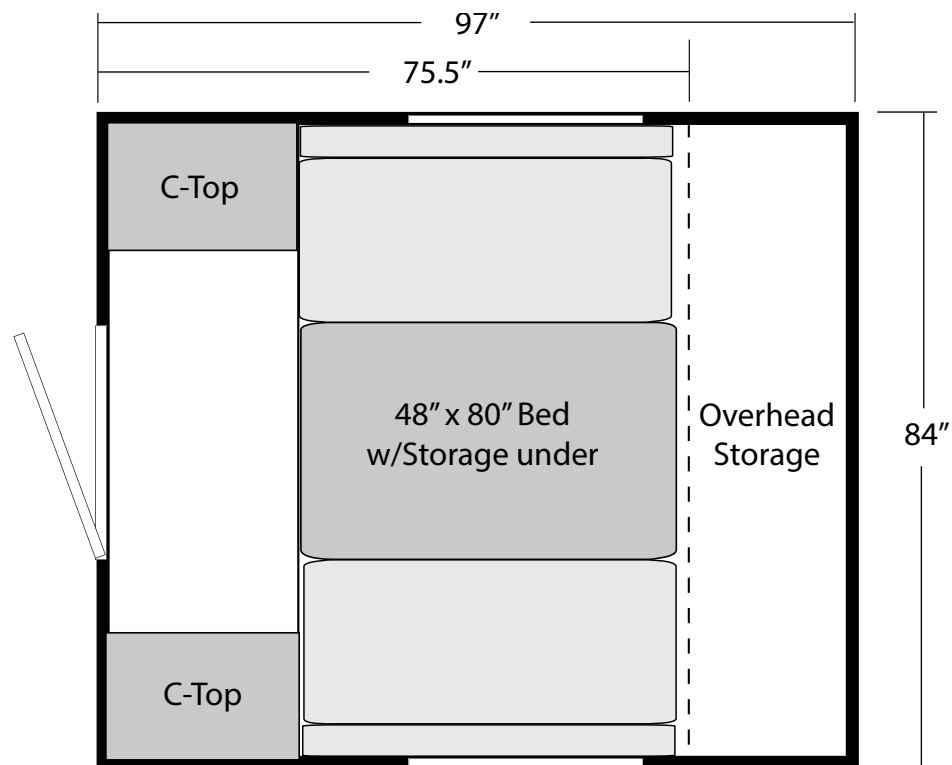

## THE ADLAR 8.0XL - OUR BIGGEST CAMPER EVER.

If you are looking for an 8' camper model but would rather have more of a kitchen layout, ask your dealer about the Adlar 8.0XLS model which is coming to the market early this Summer. It is the same layout as the Adlar 6.5XLS, but with more room!

There's room for everyone in the Adlar 8.0XL model, which sleeps four adults comfortably.

# ADLAR 6.5

## ADLAR 6.5

Weighing in at under 1,000 lbs. Soaring Eagle Campers' ADLAR 6.5 model is small, but mighty in terms of what it offers our customers. Its all-aluminum constructed, fiberglass covered, utilitarian design fits both in trucks with a 5' bed (with the tailgate down), as well as perfectly in trucks with a 6.5' bed - with the tail gate CLOSED. The ADLAR's sleek, aerodynamic design cuts through the wind, aided by the rear spoiler which also adds some style as well as providing a place for an overhead exterior porch light.

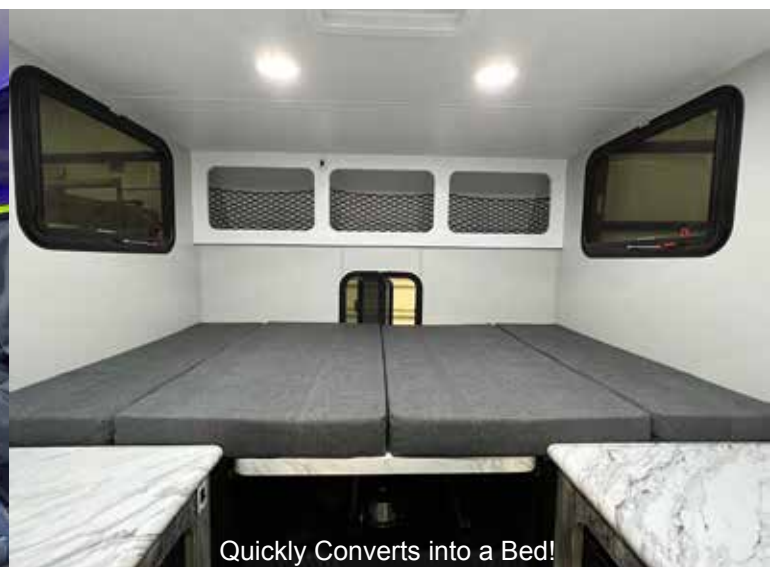

## **SLEEP COMFORTABLY AT YOUR NEXT SHOW OR COMPETITION!**

The ADLAR 6.5 from Soaring Eagle Campers is the most basic model we build, but still affords someone a place to sleep, eat or play games when traveling. The standard model comes with only a 12V system, but you can option in a 110V package with outlets and availability for a roof mounted air conditioner, as well as add a variety of solar power packages. There is storage in the overhead and in the dinette bases.

Plenty of Room for 4 Adults!

Quickly Converts into a Bed!

# OV-X TRUCK TOPPER

# OV-X

**Unmatched Quality Build - It's About What You Can't See That is Most Important!**

Soaring Eagle Campers OV-X ultra-light, truck topper camper offers a pull-out king bed with mattress that has built-in storage underneath that is perfect for gun cases or bows. By leaving the bed of the truck open, the OV-X provides storage for just about anything you would ever want to take on your adventures. The top of the OV-X goes up and down with ease utilizing a proprietary lift bar mechanism, supported by gas struts on the exterior. The tent fabric is both waterproof and durable, providing years of carefree usage. Two large 12V vent fans in the roof feature LED rings around them to light up the interior of the camper. A lot of thought went into the design and manufacturing of the OV-X and it shows in our superior construction methodology and superior components.

**ALL WELDED, TUBULAR ALUMINUM CONSTRUCTION!**

OV-X

GO ANYWHERE

CAMP ANYWHERE

WITH NO  
RESTRICTIONS

THAT'S FREEDOM

Freedom has never been more fun! Choose the versatile OV-X from Soaring Eagle Campers to maximize your outdoor adventures. Featuring a model for just about every truck bed size, the OV-X allows users to still fill the bed of their trucks with all their gear, while still being able to enjoy a safe, comfortable place to sleep at night.

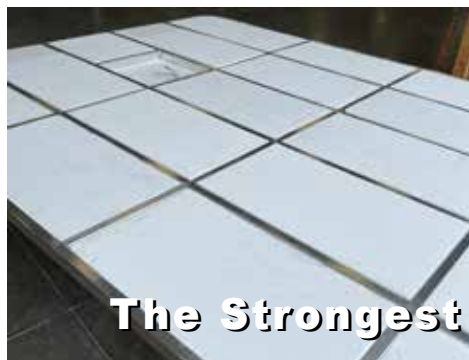

Whether you enjoy hunting, fishing, kayaking, mountain biking, hiking, or any other outdoor activities, the OV-X is designed to take you places that other small, towable campers simply cannot go!

# AVAILABLE IN MULTIPLE BED SIZES

Now with models to fit just about every truck bed size, the OV-X by Soaring Eagle Campers is fully insulated with thick, block foam insulation and covered inside with a composite board, and outside with durable metal sheeting. The roof is strong enough to walk on (in the down position) with strong tubular aluminum framing; is fully insulated; and is covered inside and out with one-piece, seamless fiberglass making it the strongest, most durable roof in the truck topper market.

**The Strongest Roof on the Market!**

Designed specifically for the small truck market, including the popular Jeep Gladiator and Toyota Tacoma models with 5' beds, the OV-X 5.0 is an ultra-light, extra rugged camper offering a pull-out bed with mattress that has built-in storage underneath.

You will appreciate Soaring Eagle Campers proprietary electrical center - crafted from durable composite material, this electrical center offers switches for the lights and vents, as well as chargers and a home for the solar controller!

Popular options include roof solar packages; exterior molle boards; rear flood lights; power roof vents, batwing awnings and more!

## SOARING EAGLE CAMPERS WILL OUTLAST YOUR TRUCK!

Is a Soaring Eagle Camper more expensive than some other campers with more features? Yes, and it is because we have constructed a camper that will outlive your truck. So don't try to "save" money by buying something of lesser quality that you will be continually reaching into your pocketbook to fix or repair over the years. Don't settle for less, go with the best.
