LIGHT & FUN

Travel is easy with Apex style and comfort. These narrow-body trailers are ideal for towing with half ton trucks and most smaller SUVs, with weights ranging from 3,000 lbs. up to 4,500 lbs. All Nano floor plans are designed with rich, warm interiors, full-sized bathrooms, contemporary cabinetry, fabrics and flooring.

The 186 BH, 203 RBK, and 208 BHS come standard with a 60" x 80" queen bed, or you can add an optional Murphy Bed with Jack Knife sofa, shown at right.

The lower double bunk in 208 BHS flips up to access a large storage area.

LIGHTWEIGHT ADVENTURE

An Apex Travel Trailer does not just start off as a frame, walls and roof... it begins with an idea! Our belief is that getting the little things right is a BIG THING! The Apex UltraLite is not like other lightweight trailers. It is much smarter because we set new, higher standards for this innovative, truly lightweight trailer.

The 251 RBK is perfect for couples who like to kick back and relax with all the amenities of home. It's open concept living at its finest, with comfortable seating located directly across from the TV for a great view, and a booth dinette for those game nights.

251 RBK

The outside kitchen is the perfect spot to grab some food and keep the fun going.

APEX CONSTRUCTION

Construction Features

- 3M Breathable graphics
- Tinted, safety glass windows
- Welded aluminum structure, vacuum-bonded sidewalls and rear wall, laminated floor
- Aluminum reinforced vacuum-bonded roof
- Dicor Crossflex roofing membrane
- Azdel composite exterior/interior sidewall and rear wall panels
- Aerodynamic front profile with fiberglass front cap and integrated window
- [2] 20 lb. LP tanks
- Insulated slam latch doors with magnetic hold-ups [N/A Nanos]
- Smooth exterior fiberglass skin
- Aluminum framed openings
- Fully enclosed, heated underbelly [Double axle models]
- Fully welded tubular aluminum floor structure
- Slide system
- Residential Style linoleum flooring
- Powder E-coated, welded I-beam frame with full-depth crossmembers
- SuperLube axles
- Radial tires

Apex features the combination of environmentally friendly Azdel wall boards inside, and out. Using Alomicage Construction maximizes strength while minimizing weight. These Ultralite Travel Trailers are designed for towing by today's half-ton trucks, and SUVs. From 18' to 34'. All units are available under 6,800 lbs.

Fiberglass Front Cap

- ¾ Front fiberglass cap for superior strength
- Automotive glass front window with superior UV protection
- Front stone guard
- Integrated LED accent lights
- Vacuum Bonded Sidewalls and Roof
- Stronger construction
- Lighter weight

Apex is proud to be one of three products to receive the Emerald Level Certification, the highest rated level possible.

As a Certified Green RV, APEX utilizes effective production techniques in combination with healthy materials, plus efficient usage of energy and water to produce a high quality RV with less environmental impact.

LIGHTWEIGHT DURABILITY

Double axle floor plans only.

ALOMICAGE™ CONSTRUCTION

Lower Center of Gravity for Better Towability

Welded Aluminum Framing

Durable, lightweight aluminum cage – individually framed cut-outs to make for stronger sidewalls and reduce water leaks.

Aluminum Reinforced Vacuum-bonded Roof

The aluminum framed, laminated roof is lighter than the competition, rigid and fully walkable.

Six Layer Laminated Floor

- A Residential durable insulated floor covering
- B Double layer Luan plywood top decking
- C Welded aluminum frame
- D Block foam structural insulation
- E Luan plywood bottom decking
- F Darco waterproof floor wrap
- G Cross member support
- H Holding tanks
- I Heated and enclosed underbelly [Double axle models]

EXPERIENCE YOUR OWN ULTRALITE ADVENTURE

*VALID FOR 1 YEAR FROM DATE OF PURCHASE

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)** - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories. *Estimated average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and grey tanks to provide for more cargo capacity. **Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit. All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.
